

TRUELINETM

HVACR & WATER HEATER PARTS AND ACCESSORIES

**AFTERMARKET MOTORS, CHEMICALS,
ELECTRICAL COMPONENTS,
INSTALLATION SUPPLIES & MORE!**

Sold exclusively by RPD (Rheem Parts Division)

TRUELINE™

About TRUELINE™

TrueLine™ is a universal branded line of aftermarket air and water heater parts & accessories sold exclusively by Rheem® Manufacturing's RPD (Rheem Parts Division) at a tremendous value. Through meticulous selection and rigorous quality control, we offer top-notch aftermarket products that cater to diverse budgets – ensuring every customer can enjoy the comfort and reliability they deserve.

With our TrueLine universal selections and our well-established brand of ProTech™ OEM Genuine Factory Authorized Parts™, RPD is your one-stop-shop for all things air and water heating replacement needs.

WHY TRUELINE?

TrueLine is the ultimate brand of aftermarket air and water heater parts and accessories. TrueLine offers a strong value proposition for the customer by providing high quality aftermarket solutions at an affordable price. TrueLine replacement parts will fit all major water heater and HVAC brands. Our pricing, promotions and marketing expertise will help you build and sustain a thriving aftermarket parts business.

BACKING OF RPD

Rheem Manufacturing's reputation as a leading manufacturer in the HVACR and water heater industry, along with their extensive global family of brands, allow RPD to provide aftermarket supplies and components at competitive pricing. See below all that RPD has to offer:

Aftermarket Installation Compressors, Supplies, Motors

We offer multiple brands of aftermarket supplies and components including Copeland Compressors and U.S. Motors (Nidec).

Freight Allowed at Lower Levels

With RPD, you can reach pre-paid freight at \$2,500 (mix and match products including compressors) for ground shipment. For water heater purchases, you can reach pre-paid freight with a \$750 purchase order. All levels can mix or match any product to get orders to the level for freight allowed.

Access to Entire Vendor Catalogs

RPD has access to many of our vendors' entire product offerings. Just because it isn't in our online catalog, doesn't mean we cannot obtain it.

Avoid Vendor Minimums

Through RPD, you have access to our vendors without having to reach vendors' minimum orders. You can bring in the inventory you need,

as you need it, instead of all at once to make freight or to hit discount targets.

2-3 Days from Anywhere Within the US (48 States)

RPD has two distribution centers located in North Carolina and Utah. We should be able to reach anywhere within the 48 states within 2-3 days for standard ground shipments. Alaska and Hawaii are subject to longer lead times to get orders to the level for freight allowed.

Ability to Source Hard-to-Find Items

Having trouble finding a particular vendor or item, give us a chance. We have access to all the major aftermarket vendors and can usually source an item for you.

Lower Freight Charges

At RPD, if your order doesn't make the minimum for freight allowed, then you pay what we pay for freight. There is no mark up for freight. Due to our heavy volume, we enjoy some of the lowest shipping costs available.

UPDATE ON PREFERRED™

We are excited to announce our aftermarket replacement parts brand, Preferred, has now transitioned to TrueLine. This change represents our commitment to delivering superior quality and reliability in every product. TrueLine parts are selected with enhanced craftsmanship and durability in mind, ensuring your equipment receives the best possible replacement.

While our name is changing, our dedication to providing exceptional products and service remains the same. We believe TrueLine will better reflect the high standards and performance you have come to expect from RPD's aftermarket offering.

Thank you for your continued trust and support. We look forward to serving you with our enhanced, ever-growing aftermarket brand, TrueLine.

Motors

A line of HVAC replacement motors for outdoor condensing units and indoor air handling units.

Designed for a wide variety of aftermarket HVAC replacement applications, the TrueLine universal replacement series of motors are manufactured under strict quality standards at one of the world's largest and most modern motor production facilities.

FEATURES

PSC Outdoor Condenser Motors

- Thru-bolt or belly band mounting
- Self-aligning bearing
- Reversible
- 48 frame
- 825 or 1075 single speed
- 1/2" shaft diameter
- 4-1/2" or 5" shaft length

PSC Indoor Blower Motors

- Thru-bolt or belly band mounting
- Self-aligning bearing
- Reversible
- 48 frame
- 1075/950/850 three speed
- 1/2" shaft diameter
- 5" shaft length

Constant Torque Indoor Blower Motors

- Belly band mounting
- Auto-Sensing Rotation
- 48 frame n 1075/variable
- 1/2" shaft diameter
- 5" shaft length

HIGHLIGHTED PRODUCTS

*From left to right:
W51-MHBDV-04, W51-13BJA3-02, & W51-14CJA1-02*

Capacitors

TrueLine aftermarket capacitors are available in a comprehensive assortment and designed for continuous duty in HVAC applications.

FEATURES

- Certified to UL 810 standards
- -40°C to 70°C operating temperature range
- Standard configurations of single round, single oval, double round, and double oval
- Microfarad ratings from 3°F up to 80°F
- 370V and 440V

HIGHLIGHTED PRODUCTS

From left to right: Dual Oval Capacitor, Single Round Capacitor, Single Oval Capacitor, and Dual Round Capacitor

Chemicals

A full line of quality chemicals and specialty products for residential and commercial air conditioning, refrigeration and heating applications.

PRODUCT CATEGORIES

- General Purpose Cleaner
- Condenser Coil Cleaner
- Evaporator Coil Cleaner
- Ice Machine Cleaner
- Vacuum Pump Oil
- Refrigeration Oil
- Protective Coating
- Leak Reactant
- And more!

HIGHLIGHTED PRODUCTS

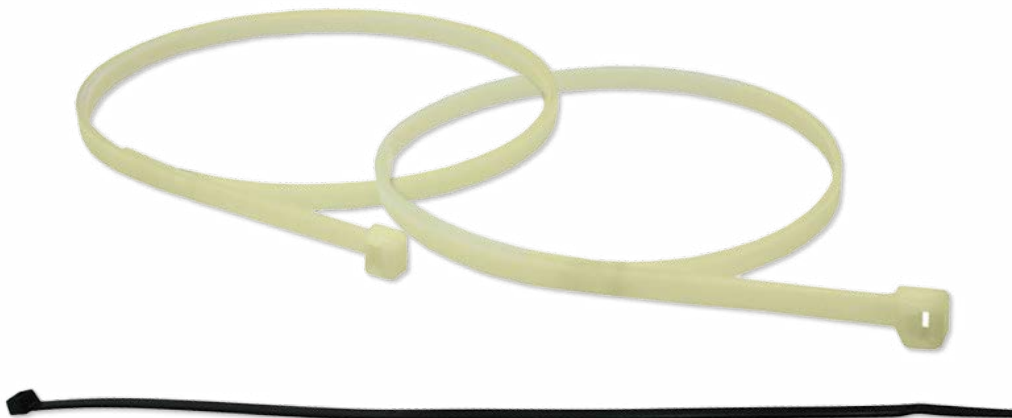

From left to right: 85-C02, 85-2600, & 85-1101

Cable & Duct Ties

TrueLine cable and duct ties are made from high-tensile-strength nylon and are available in the most popular sizes. Available in black and natural colors.

HIGHLIGHTED PRODUCTS

From top to bottom: 640034 & 455070

Screw, Whips, & Disconnects

SCREWS

Whether it's sheet metal, register or self-tapping screws, our extensive product offering provides you with the correct hardware for the task at hand.

FEATURES

- Most popular sizes & lengths available
- Available in bulk quantities
- 1/4" & 5/16" chuck drivers
- 3/16" & 5/16" refrigeration hex key inserts

HIGHLIGHTED PRODUCTS

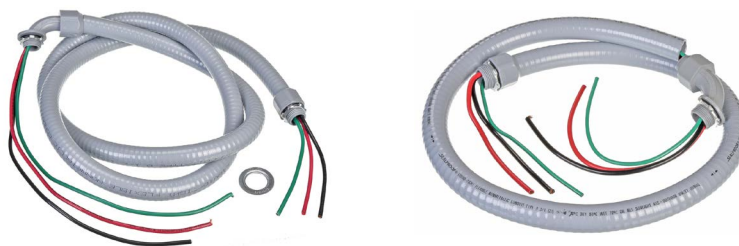

From left to right: 86-11268-500PK, 10550, & 86-11026-MPK

WHIPS

Available in 1/2" and 3/4" conduit sizes and in 4' and 6' lengths.

HIGHLIGHTED PRODUCTS

From left to right: 849040 & 849042

DISCONNECTS

An essential installation accessory, TrueLine disconnects are available in 30A and 60A. 60A disconnects come in fused and non-fused configurations.

FEATURES

- Includes multiple knockouts on all enclosure sides
- Rainproof NEMA 3R outdoor enclosure

HIGHLIGHTED PRODUCTS

From left to right: 84-25175-05 & 84-25175-06

Mastic & Silicone

MASTIC

Professional grade water-based duct sealants used in low, medium and high-pressure duct systems. Mastics are non-flammable and provide permanent flexibility, excellent water resistance and superior sealing strength.

FEATURES

- LEED EQ 4.1 Compliant
- Indoor/Outdoor
- Excellent Adhesion
- Excellent Flexibility
- Mold & Mildew Resistant
- Water-based
- Low VOC
- Fibered or Smooth

HIGHLIGHTED PRODUCTS

From left to right: PD671611 & PD671610

SILICONE

Available in aluminum, clear, and white to best meet your application needs.

HIGHLIGHTED PRODUCTS

IAQ

Indoor air quality is a global issue, with exposure causing a range of health issues. Our Indoor Air Quality (IAQ) products control air contaminants by reducing them to acceptable levels or by completely removing them with the replaceable MERV 8 or MERV 13 filters.

FEATURES

- Comes with a high-efficiency MERV 13 filter to trap particles as small as .5 micron including pollen, dust, mold and dander
- MERV 8 replacement filters available
- Installs into ducted central heating and air conditioning systems
- Easy media filter replacement
- Meets ANSI/ASHRAE 52.2 standards
- Robust heavy duty metal construction
- Perfect for any residential or commercial forced air heating or cooling system up to five tons
- 10-year limited warranty

HIGHLIGHTED PRODUCTS

From left to right: 54-TL20255-M13, 84-TL20255-R, & 84-TL20255

Contactors, Relays & Transformers

TrueLine offers high-quality electrical components that are essential for keeping your systems up and running. Contactors, relays, and transformers are available in the most common configurations.

FEATURES

- Contactors available in 1 Pole (30A), 2 Pole (30A, 40A) and 3 Pole (40A)
- Relay replacements available for 90-340, 90-370 and 90-380
- Transformers available in 40VA and 75VA

HIGHLIGHTED PRODUCTS

From left to right: 46-TLT40, 425069, & 42-TLR340

System Flush

TrueLine system flush is Ideal for new system cleaning, installing new components, compressor burnouts and retrofitting for new refrigerants.

FEATURES

- Kit includes 16oz aerosol can, flush gun, 18" flush hose, and actuator valve
- 140+ PSI
- Flushes 3-6 tons
- Kit components available separately

HIGHLIGHTED PRODUCT

Part Number: 85-TLFSKIT

Electric Water Heater Elements

These universal threaded elements fit a variety of brands including: Rheem, Ruud, Richmond, American, AO Smith, Bradford White, Craftmaster, General Electric, GS Wood, Kenmore, Lochinvar, Maytag, MorFlo, Reliance, Sears, State and Whirlpool water heaters.

Part Number: UV13049

FEATURES

- Fits most water heaters – screw-in elements with 1 inch NPSM threads fit most water heaters which use screw-in type elements.
- Watt Density – lower watt density means the element stays cooler and will last longer.
- LWD: low watt density (100 watts/sq. in. or less)
- MWD: medium watt density (101–150w/sq. in.)
- HWD: high watt density (over 150w/sq. in.)

Sheath Material Guide

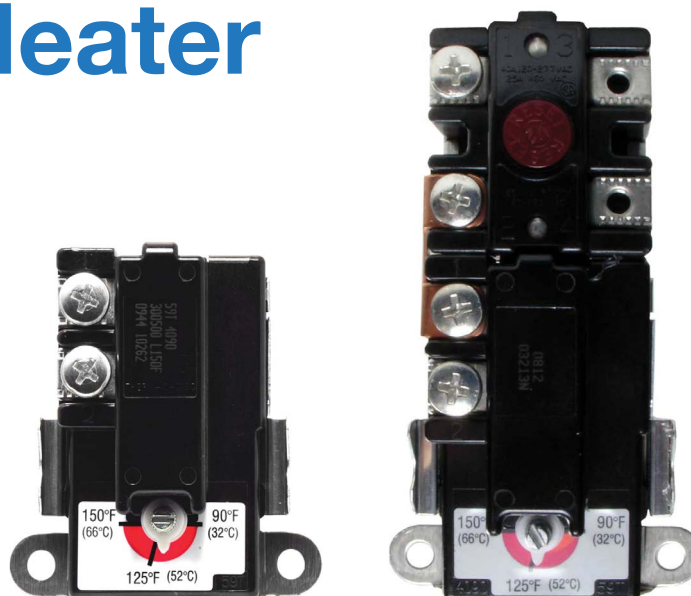

- Stainless Steel: premium corrosion protection for long life
- Copper: high quality corrosion protection; may be coated with tin, nickel or other protective finish

Part Number	Input Voltage (V)	Wattage at 120V	Wattage at 240V	Flange to Tip	Watt Density	Sheath Material
UV12892	120	2000	-	7.54"	HWD	Copper
UV12899	120	-	4500	13.5"	HWD	Copper
UV13049	120		4500	7.96"	HWD	Copper
UV12901	120		4500	11.76"	MWD	Copper
UV12890	120	1500		7.63"	MWD	Copper
UV12904	120		4500	13.44"	LWD	Stainless Steel

Electric Water Heater Thermostats

The thermostat turns the heating element on and off to maintain the water temperature. If the thermostat stops working, the element either won't come on at all and the water is cold, or the element stays on too long and the water is too hot.

From left to right: UV11695 & UV11700

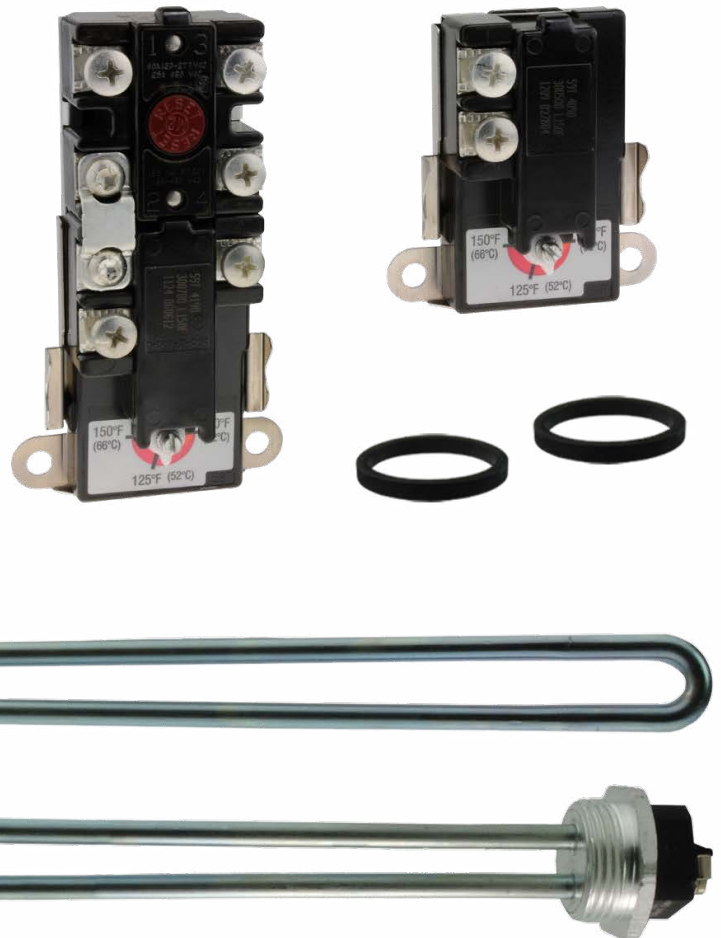

FEATURES

- Replaces APCOM-style thermostats
- Fits most brands: Rheem, Ruud, Richmond, GE, State, Kenmore, Bradford White, AO Smith, American, Craftmaster, Lochinvar, Reliance, GS Wood, Mor-Flo and Whirlpool
- Temperature-sensitive bi-metal disc delivers snap action to the contacts
- Energy-efficient range setting from 90° F to 150° F
- Speed and force of contact separation provide a long-lasting, dependable performance at high electrical loads
- Durable metal and plastic construction
- Manual reset switch helps prevent overheating
- 1-year limited warranty

Part Number	Upper or Lower	High Limit Adjustment Range (F)	Manufacturer	High Limit Control
UV11698	Upper	90 to 150	TOD	Manual Reset
UV11695	Lower	90 to 150	TOD	Manual Reset
UV11700	For heaters with one element	90 to 150	TOD	Manual Reset

Electric Water Heater Tune-Up Kit

Electric Water Heater Tune-Up Kit provides a quick and easy way to replace the most common problem items on an electric water heater. The tune up kit helps prolong the life of your water heater by renewing the electrical components of your water heater.

From right to left, top to bottom: SP11698, SP11695, AP6708-9 (2), & UV12899 (2)

FEATURES

- Includes two 240V/4500W screw-in elements with gaskets
- Includes both upper and lower thermostat

Part Number	Description
UV20018	Electric Water Heater Tune-Up Kit

Element Wrench

This wrench is specially designed to fit all screw-in electric water heater elements.

Part Number: UV38628

FEATURES

- Fits standard 1-1/2 inch hex heads used on most water heaters
- Allows use of screwdriver for additional leverage

Part Number	Description
UV38628	Electric Wrench (Fits 1-1/2 in. Hex)

T&P Valves

Temperature and pressure relief valves are emergency safety limit devices that will prevent or relieve overheated water or excessive pressure.

From left to right: UV6571B & UV8346

Part Number	Description	Temperature Relief (F)	Pressure Relief Range (PSI)	Body Length (in)
UV8346	T&P Valve – Long Shank	210	75 to 150	4 1/4"
UV6571B	T&P Valve – Standard Shank	210	75 to 150	3 1/4"
